

## **Client:**

The Brisbane Coffee Society (BCS).

## Why:

BCS has requested for a coffee ordering app that makes coffee ordering simple and fast.

### Who:

This app is intended to be used by coffee lovers who want to find a cafe in a convenient location and not have to queue up to wait for their coffee to be ready.

The time-poor and caffeine-desperate.

# Features:

User Authentication/Authorization

CRUD for User / Cafe / Menu / Coffee models

Map of nearby cafes

Coffee ordering

Stripe payment gateway

**Email notifications** 

Cafa and admin dachboards

# **Desireable features:**

User ratings

More than just one coffee

Loyalty program

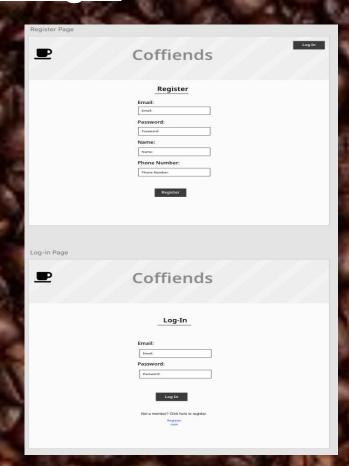

Notify with sound when new order comes through

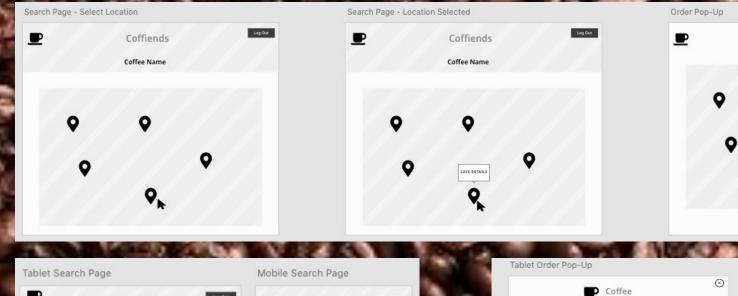

## **Tools:**

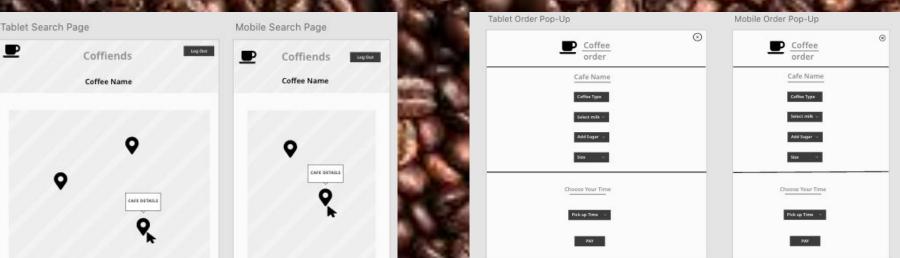

MERN - tech stack Trello - project management Git and Github - source control Heroku - deployment Discord - communication Draw.io - diagrams Adobe XD - wireframes Bootstrap or Material UI - styling
